

# CAMBRIDGESHIRE TEACHER INTERNSHIP PROGRAMME

## Are you considering a career in teaching?

## Would you like to be paid while you train?

**We asked our interns and their head teachers their feelings about the programme.**

*"I would recommend this approach to teacher training, especially for someone who is coming to teaching from **another profession**."*

*"An added bonus is the **nil training cost** - and the salary helps."*

*"**It's paid!** I simply could not have afforded to pay £9k for a PGCE and not be earning."*

*"This way I have a year to **try things out**, as well as make me a better teacher in the long run."*

*"It is so reassuring to be based in a school that will **support you**."*

*"My **school** is as **invested** in my training as I am."*

**What our head teachers say:**

*"We wanted to be able to **grow our own**" personnel and have the opportunity to develop someone who is clearly interested in teaching for the long term."*

*It provides us with the opportunity to work with an individual and **support them** to become the teacher we need them to be within our establishment."*

*It is a way of investing in our team for the future and additional capacity so we can continue to provide **quality first teaching** regardless."*

*"This is the **best teacher training route** I know."*

*"By the end of the course they will have a greater experience than a PGCE and **greater depth of experience of the profession** due to being a colleague in one school over two years."*

*I think it's likely to **reduce the loss of colleagues early in their careers** as they'll be going into teaching with open eyes."*

We are particularly keen to hear from candidates interested in teaching in a **primary school** or in teaching **Maths, Science** or **Modern Foreign Languages** in a secondary school.
